KONG was selected product of the month by BodyBuilding.com

Kong products are the leading male enhancement and sexual performance products available. Kong, Kong Black Voodoo and Kong Redhorn may be taken individually and/or alternated to "shock" your system with different formulas for excellent results.

The ultimate combination is to take Kong and Kong Black Voodoo daily and then take fast-acting Kong Redhorn about 30 minutes prior to activity (effective up to 15 hours). This combination is guaranteed to rock your (her) world.

Kong Red Horn works even when alcohol is consumed, though we do not recommend the consumption of alcohol.

Kong products are also renowned strength, enhancers supporting improved stamina, size and power both in the gym and afterwards too.
